Jelly Pedi

What is Jelly-Pedi?

- ⌘ Jelly-Pedi is truly a unique spa experience.
- ⌘ Jelly-Pedi turns water into a luxurious encasing comfort, which provides the ultimate relief for stress and aching muscles.
- ⌘ Add Jelly-Pedi to warm water and it becomes a translucent, fluffy jelly, which will retain its heat up to four times longer than regular water.

What is in it?

Jelly-Pedi consists of two components.

The first component comprises a unique combination of natural powder ingredients which when added to hot water produces a gelatinous mixture. The second component, often found in the cupboards of the most kitchen, is made up of baking soda and mineral sea salts which dissolves the mixture and allows the contents of the tub to easily drain.

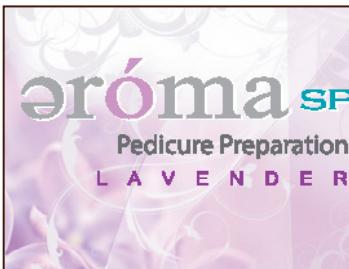

Who makes it?

- ⌘ Developed in Japan Jelly-Pedi is now available in America. Spas and nail salons all over the country are currently offering Jelly-Pedi to their customers. Jelly-Pedi is utilized as a pre-soak for pedicure and bath.
