Step By Step

Volcano Spa \$62

Tropical Citrus

Honey Pearl

Orange No. 5

Romance

Step 1:

Detox Volcano Crystals

To prepare for the fun bubble explosion, first add the full packet of Volcano Crystals to warm spa water. Be sure to spread the volcano crystals evenly throughout.

Step 2:

Detox Volcano Activator

Immediately add the full packet of Volcano Activator to begin the bubbling Volcano eruption. Clients will especially enjoy this effect as the entire room fills with the lovely fragrance! Allow feet to soak for approximately three minutes as the reaction detoxifies and softens the skin. Dry legs and feet with a towel. To blend the ingredients and boost the fragrance, turn on the water jets before continuing.

Step 3:

Exfoliating Sugar Scrub

Apply a generous amount of sugar scrub and massage gently to exfoliate the skin. These raw sugars and essential oils help renew the texture of skin and enhance vibrancy, leaving skin feeling soft and smooth. Be sure to rinse the sugar scrub and towel dry.

Step 4:

Collagen Cream Maske

The Collagen cream mask is formulated to draw out any remaining impurities while rejuvenating skin's appearance. Apply Mask evenly over legs and feet, then wrap a warm towel around both legs. Allow the mask to dry for 10 minutes to provide the full benefits. Rinse both legs afterwards and towel dry.

Step 5:

Collagen Massage Lotion

For silky soft results, massage lotion onto legs and feet until it has been completely absorbed. This final step soothes and moisturizes, leaving your client's skin feeling hydrated all day.

Jelly Pedi

What is Jelly-Pedi?

- ☞ Jelly-Pedi is truly a unique spa experience.
- ☞ Jelly-Pedi turns water into a luxurious encasing comfort, which provides the ultimate relief for stress and aching muscles.
- ☞ Add Jelly-Pedi to warm water and it becomes a translucent, fluffy jelly, which will retain its heat up to four times longer than regular water.

What is in it?

Jelly-Pedi consists of two components.

The first component comprises a unique combination of natural powder ingredients which when added to hot water produces a gelatinous mixture. The second component, often found in the cupboards of the most kitchen, is made up of baking soda and mineral sea salts which dissolves the mixture and allows the contents of the tub to easily drain.

Who makes it?

- ☞ Developed in Japan Jelly-Pedi is now available in America. Spas and nail salons all over the country are currently offering Jelly-Pedi to their customers. Jelly-Pedi is utilized as a pre-soak for pedicure and bath.
